## UI/UX DESIGNER & UI ENGINEER

## ABOUT ME

**Hello**, I am always helping Frontend Developer and collaborate with Backend Developer as UI/UX Developer, and I am UI/UX Design enthusiast at start up company because I am very passionate about it ! Currently, I am working at Dezign District Jakarta - Furniture B2B and B2C Company. I do not only create a beautiful UI –more than that, I develop the website to become responsive too. i always follow and stay update about trend design nowadays. I am eager to improve my UI/UX Design skill and my coding skill. Aside of that, I also am interested in videography and motion graphic.
